

March 2016

Kindergarten - D Newsletter

Shoeboxes Needed

Remember to send in your shoebox on or before Tuesday, March 8. Every child needs to have one as we will be creating leprechaun traps for St. Patrick's Day. We will begin painting our boxes from March 8 to 10 and will start trap construction on Monday, March 14th.

Welcome to our Student Teacher

Miss Watson will be joining our classroom on March 14 as a practicum student from the University of Alberta. She will be in our class for five weeks. Here is an introduction note from her:

My name is Katherine Watson and I am very excited to be student teaching in Ms. Drefs classroom. I am currently in the third year of my teaching degree at the University of Alberta. I have had some experience of working with kids through volunteering at summer camps and daycares, and I am very excited to begin my teaching career. I enjoy taking road trips and going camping, as well as tobogganing and skating.

Student Led Conferences

If you have not yet sent in your slip to reserve a spot for Student Led Conferences on March 9 & 10 please do so soon. Wednesday's time slots are quickly filling up.

The format of the evening is the same as our SLC in November, but with different activities. If you can't make it but have questions about your child's progress please send me an email. It is really important you log on to PowerSchool to view your child's grades prior to the evening so you already know how they are doing.

Building Center

This month we will introduce the children to simple tools. Our drama center will be changed into a building center. Thank you to the families that have sent in small pieces of wood for us to use. I know these will quickly get used up so if you have more please send them in for us to continue building with. We will use sand paper, nails and hammers, screw drivers, and glue to build creations.

March 2016

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
Show and Share: "Guess What?" Please send back the Hint Sheet (sent home on Feb 3, and found on the blog) with a small item in a paper or cloth bag. We will read the clues and use our sense of touch to see if we can figure out what the item is.
